Dear [Name]

My name is NAME and I work for Smarter Surfaces, an Irish company which manufactures innovative Whiteboard, Magnetic and Projection Paints, Wallpapers and Self Adhesive Films. I am contacting you as I would like to introduce our products to your esteemed architectural firm.

At Smarter Surfaces, we work closely with architects and interior designers who choose our surface solutions for their projects all across the UK for workspaces, offices and schools or universities. For example, we recently had the privilege of working with FIRM EXAMPLES among many others with such a great reputation.

Our products transform any space into a collaborative and dynamic space by having large areas of whiteboard, magnetic and projection uses (any combination between these 3 functionality can be done).

Our cutting-edge range of products includes our latest addition - a projection range tailored for museums, cinemas or home use among others. These surfaces are engineered to deliver exceptional visual experiences, ideal for creating immersive environments in your architectural designs.

To demonstrate our commitment to a potential collaboration, we are offering free samples of our whole range product line. These samples are perfect for you to test and have a better idea of the impact our products could have on your projects.

To receive the complimentary sample pack or for any other enquiry, please contact me on agent@smartersurfaces.com or on the phone number: + 44 203 514 5395. I will be delighted to assist you.

Sincerely,

NAME AGENT
